

THIEVES: Protection in a Dangerous World

Today's world is one full of threats to our health. Foremost among these are infectious agents like bacteria, viruses, and fungi. Young Living's proprietary Thieves essential oil blend is a proprietary formulation based on the historical account of four thieves in France who protected themselves from the Black Plague with a blend of cloves, rosemary, and other aromatics while robbing victims of the killer disease. Thieves is specially blended to offer the same kind of defense, and has been university tested and found to be highly effective against airborne bacteria and other pathogens.

Thieves Can Replace

The Thieves product family offers wide-reaching versatility for all your home and health needs. Below are just some of the common home and health products you can now replace with a safe, all-natural Thieves™ product:

- Liquid hand soap
- Sanitizing cleanser gel
- Sanitizing wipes
- Baby wipes
- General household cleaners (sprays, scrubbing powders, etc.)
- Throat lozenges
- Throat spray
- Mouth wash
- Fluoride toothpaste
- Air freshener
- Dryer sheets
- Bleach cleaning agents
- and more!

WHAT'S IN THIEVES

Clove Oil

- Nature's richest source of key compound eugenol
- Highest-scoring single ingredient tested for its antioxidant/ORAC capacity
- Also known for its immune-enhancing properties

Lemon Oil

- A powerful antioxidant agent
- Contains 68% d-limonene, a key antioxidant
- Widely used as a natural solvent and cleanser

Cinnamon Bark

- Rich in antioxidants
- Research shows it possesses distinct antimicrobial abilities
- Supports the digestive system

Eucalyptus Radiata

- Extremely versatile and health-promoting
- Contains powerful eucalyptol compound
- Lab tests show it effective against bacteria in topical applications

Rosemary Oil

- Shown to possess antimicrobial properties
- Helps restore mental alertness
- Rejuvenates and minimizes mental fatigue

PROTECT YOUR HOME & LOVED ONES WITH THIEVES

The Thieves household products line provides safe, effective alternatives for use in the home:

Thieves Foaming Hand Soap: Cleanse, defend, and condition the skin with Young Living's Foaming Hand Soap.

Thieves Essential Oil Blend: Get all the natural potency of the Thieves original blend for all-purpose use.

Thieves Waterless Hand Purifier: A safe and effective product for staving off harmful germs and bacteria.

Thieves Spray: Young Living's Thieves Spray is an easy, convenient product to help clean and protect every surface in your home.

Thieves Household Cleaner: New formula boasts the most effective, 100 percent plant-and mineral-based ingredients available for all-purpose cleaning throughout your home.

Thieves Dentarome Toothpaste: Our most gentle toothpaste, Thieves Dentarome Toothpaste, is generally recommended for children.

Thieves Lozenges: Available in soft or hard formulations, these carry the power of Thieves and can soothe a dry throat or simply freshen your breath.

10 WAYS TO USE THIEVES

There are dozens of ways to use the Young Living Thieves products. Below are just a few:

1. Rub Thieves Essential Oil blend on bottoms of feet for extra protection
2. Put 2-3 drops of Thieves on dryer sheet to freshen laundry
3. Add capful of Thieves Household Cleaner to laundry to eliminate mildew odor
4. Use diluted Thieves Household Cleaner to remove grease, food or pet stains
5. Use Thieves Spray on laundry while folding
6. Apply Thieves Spray as bathroom deodorizer
7. Clean countertops and cutting boards with Thieves Wipes
8. Use Thieves Wipes to disinfect doorknobs, handles, phones, keyboard and any other surface
9. Put Thieves Mouthwash inside small spray bottle to use as breath freshener
10. Use Thieves Cleansing Bar Soap as a pre-wash treatment to scrub stains

"I always put one drop of Thieves® essential oil blend on my toothbrush after I brush. It keeps the germs at bay, enhances the flavor of my Thieves toothpaste, and gives my mouth a kick every time I brush!"

—Jeanne Corrin, Young Living e-News, June 2009

"As a mom, I love it. Put a few drops in water and gargle with it throughout the day. I also diffuse it during cold and flu season as needed, and keep it running in my office a good bit of the time!"

—Dr. Julie Montgomery, Essential Lifestyle magazine, Vol. 5 No. 1
